

ONE-PAGE CHEAT SHEET: Run MERN & MEAN Projects (with Port Change)

MERN PROJECT

Start Backend:

```
cd C:\Users\anant\mern-app\backend
node server.js
```

Start Frontend (React):

```
cd C:\Users\anant\mern-app\frontend
npm start
```

MEAN PROJECT

Start Backend:

```
cd C:\Users\anant\mean-app\backend
node app.js
```

Start Frontend (Angular):

```
cd C:\Users\anant\mean-app\frontend
ng serve
```

Default Ports

MERN Frontend: 3000

MEAN Frontend: 4200

Backend (both): 5000

How to Change Backend Port (IMPORTANT)

If you want to run MERN and MEAN backends at the same time, change the port number in one backend file.

Step 1: Open server/app file

- MERN: backend/server.js
- MEAN: backend/app.js

Step 2: Change port number

```
Replace:
const PORT = 5000;
```

```
With:
const PORT = 5001;
```

Step 3: Restart backend

Ctrl + C → node server.js / node app.js

Stop Any Server: Ctrl + C (Press Y if asked)
